SUMMARY

I am an innovative and detail-oriented Front-End Developer specializing in Angular.js and responsive web design. With a strong background in building high-performance, user-friendly web applications, I have proven my ability to optimize load times significantly and enhance user experience. I am eager to leverage my technical expertise in a dynamic team environment to create scalable web solutions

EXPERIENCE

Front-End Developer

Routes

📅 02/2023 - 01/2024 📍 Alexandria, Egypt

A company focused on digital comics and interactive storytelling

- Developed and maintain the front-end of the company website using Angular.js and Tailwind CSS
- Collaborated with the design team to optimize user experience and reduce load times by 30%
- Ensured full responsiveness across mobile, tablet, and desktop platforms, improving cross-device compatibility

Backend Developer

Routes

📅 08/2024 - 05/2025 📍 Egypt

Academy for cs courses

- Highlight your accomplishments, using numbers if possible.
